TOMWIN'S VISION

Tomwin is determined to push forward without rest so as to become a global business that delivers high added value to its customers through ceaseless growth and technological development.

- ✓ Research the latest localization trends and continuously implement professional training
- ✓ Maximize work efficiency with our self-developed CPMS (Consolidated Project Management System)
- ✓ Minimize our customers' waiting time by implementing flexible working hours and working from home

TOMWIN'S PROMISE

Higher Quality

- ✓ We'll carry out translations using professional translators who have been vetted through our own independent system.
- ✓ After translation is complete, an in-house Language Manager will thoroughly manage the quality of the product.
- ✓ We'll minimize human error by introducing a commercial QA system.

Save Your Cost

- ✓ We'll reduce unnecessary expenses for the customer by optimizing the work process using our own Tomwin-developed tool.
- ✓ We'll reduce both the expenses and time required for the customer by utilizing a variety of professional translation software (CAT tools).

Tomwin, by guaranteeing a fair rate to the translator and providing a high-quality product to the end customer, promises to create a community in which everyone can **Win**.

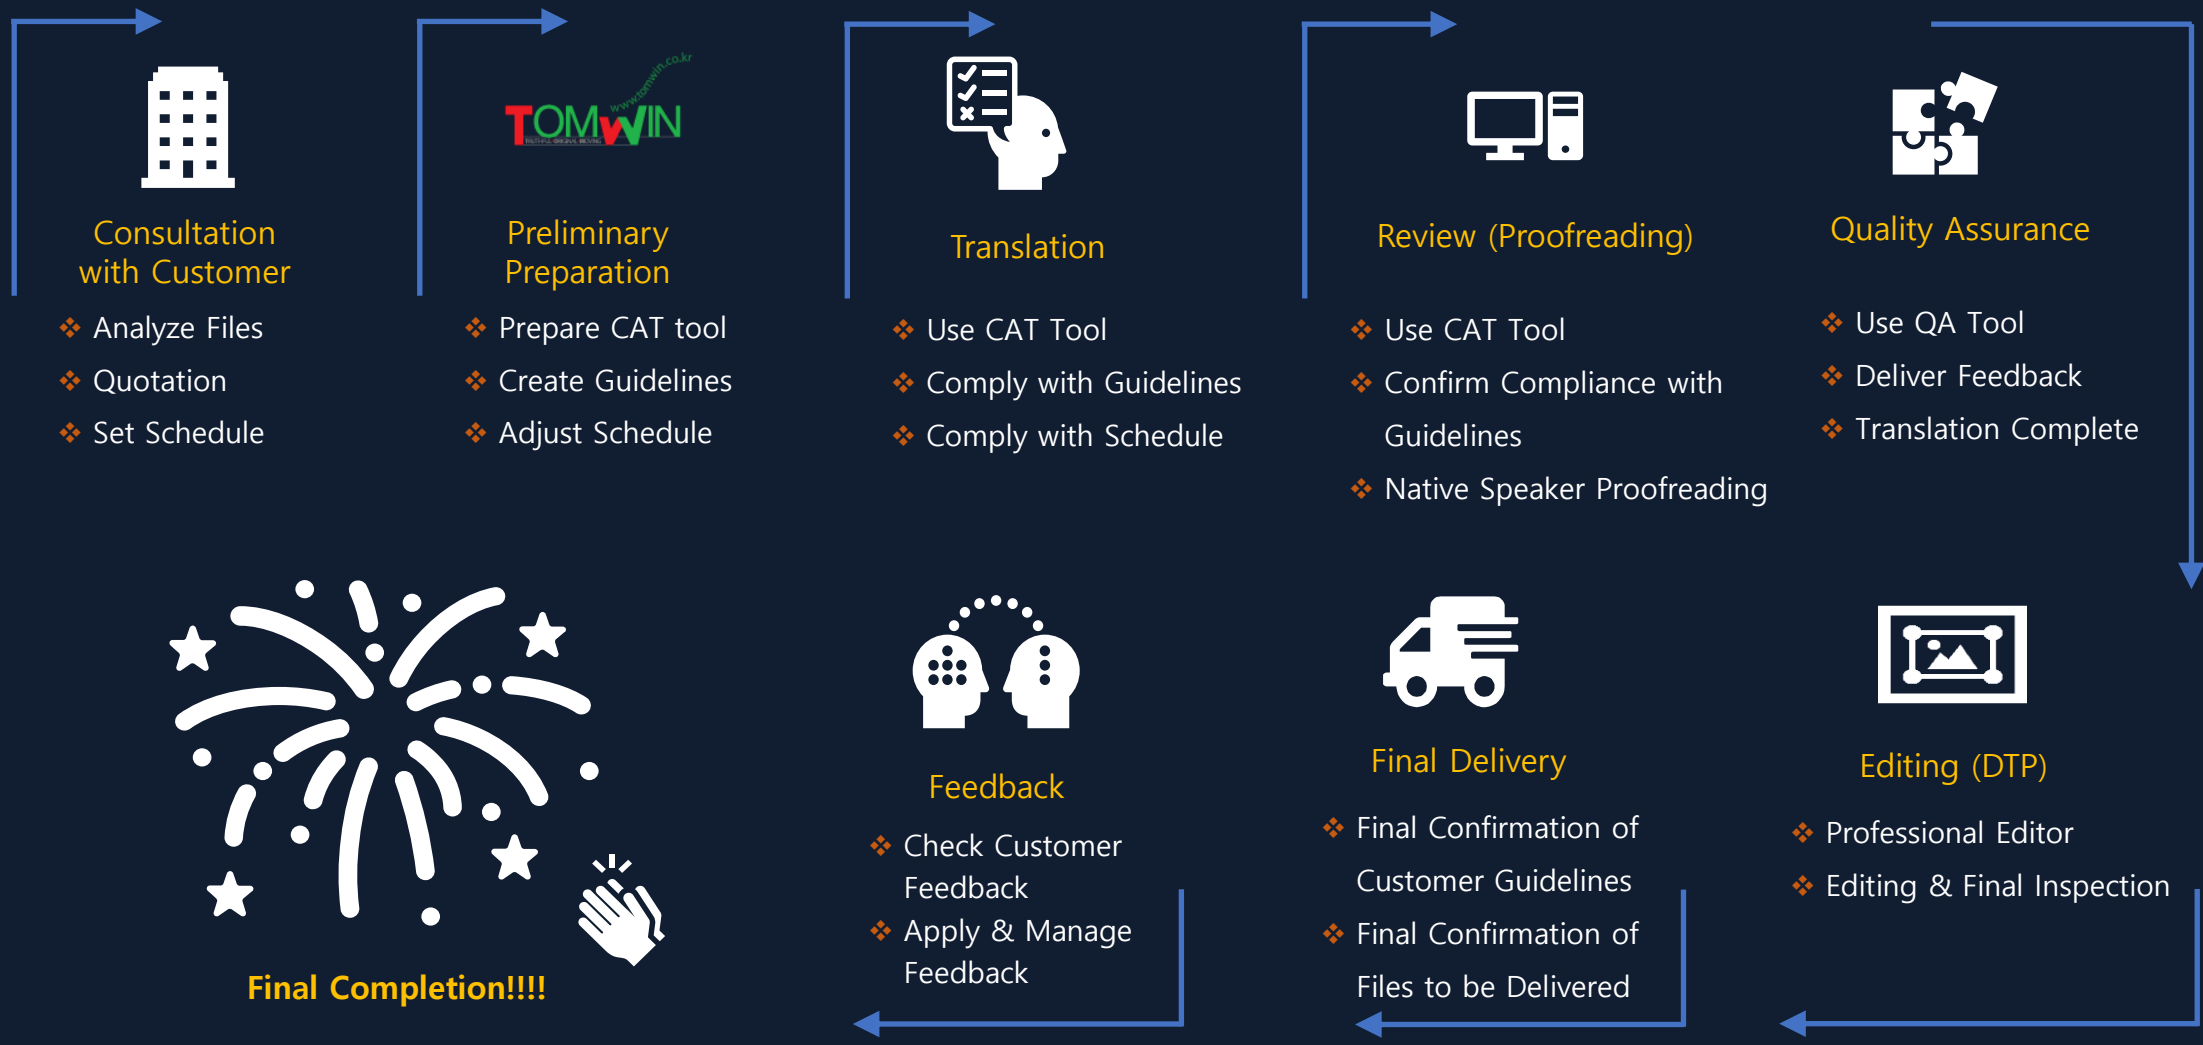

Keep Your Secret

- ✓ We'll protect the customer's information as if it were our own personal information through our periodic security training.

On Time Delivery

- ✓ We'll care for customer's precious time by making sure to comply with deadlines.

PROCESS

WHAT is CAT Tool?

Computer Aided Translation Tool

Improve Efficiency

- ✓ Reduce time required and lower costs due to repeated content and similar sentences

Improve Quality

- ✓ Maintain consistency of phrases and terminology and thereby maintain a quality of translation that surpasses the abilities of human memory

Construct Translation Database

- ✓ Organize all completed translations in a database to reduce the time and expenses required for future connected projects

Tomwin utilizes professional translation software to take care of efficiency, quality, cost, and time reduction.
